PROFESSIONAL SUMMARY

Results-driven Information Technology graduate and automation-focused problem solver with hands-on experience designing and deploying business process automation in a live production environment. As the first IT intern at an Australian managed service provider, independently delivered nine production automation workflows that each eliminated an estimated one to three hours of repetitive manual work across HR and administrative processes. Skilled in no-code/low-code automation, systems integration through APIs, process auditing, and applying AI tools to accelerate solution design and turn manual, repetitive tasks into efficient, automated workflows.

TECHNICAL SKILLS & TOOLS

- **AI Tools & LLMs:** Claude, Claude Code, Claude API (Anthropic Console), Microsoft Copilot, Google Gemini, AI-Assisted Development, Prompt Engineering.
- **Automation & No-Code/Low-Code:** Microsoft Power Platform (Power Automate, Power Apps, Power BI), Business Process Automation, Workflow Automation, Scheduled Cloud Flows, Adaptive Cards.
- **Systems Integration:** API Integration, Microsoft Graph API, REST APIs, Webhooks, JSON, API Key Management, Google Apps Script.
- **Business Analysis:** Process Auditing, Process Mapping, Requirements Gathering, Systems Analysis, Rapid Prototyping, System Testing & QA, Technical Documentation.
- **Tools & Collaboration:** Microsoft 365, SharePoint, Microsoft Teams, Outlook, Excel Online, Jira, Visio, Stakeholder Communication, Cross-Functional Collaboration.

PROFESSIONAL EXPERIENCE

Benchmark365 – Australian Managed Service Provider (MSP)

HR/IT Intern | Cebu City, Philippines

February 2026 – May 2026

- **Process Auditing & Discovery:** Partnered with the People & Culture Consultant, analysts, the HR Business Partner, and company administrators to map manual HR and administrative workflows and target high-frequency repetitive tasks (data entry, approvals, notifications) for automation.
- **Workflow Construction & Systems Integration:** In a company-mandated Microsoft-only stack, built, tested, and deployed nine production automation workflows on the Power Platform (Power Automate, Power Apps, Power BI), integrating SharePoint, Teams, Outlook, and Excel Online via Microsoft Graph API. Each workflow eliminated an estimated one to three hours of repetitive manual work.
- **AI-Assisted Delivery & End-to-End Ownership:** As the company's first intern, owned each project across analysis, development, testing, and documentation, using AI assistants (Microsoft Copilot, Claude) to accelerate delivery. Turned over every completed workflow to the company service account to keep automations running after the internship.

ACADEMIC PROJECTS

TranspiraFund: Intelligent Monitoring and Assessment of Barangay-level Projects in Local Government Units

Project Manager, Web & Mobile Developer, QA Tester

2025 – 2026

- **Stakeholder Management:** Conducted requirements-gathering discussions with sponsor users, the Cebu City Construction Department under the Department of Engineering and Public Works (DEPW), to define project scope and align the solution with local-government monitoring needs.

- **Technical Development & AI Integration:** Led a three-member team to build the web and mobile application with React and Firebase, integrating Claude models via the Anthropic Console API to automate project assessment.
- **Quality Assurance:** Performed quality assurance testing across the web and mobile platforms, identifying and resolving defects to ensure stable performance before deployment.

LEADERSHIP & INVOLVEMENT

Event Operations Manager (Intramural Basketball Event)

College of Computer Studies

2023 – 2026

- **Stakeholder Management:** Served as the primary point of contact for diverse groups including the coach, tournament manager, and university administration, ensuring all requirements were aligned.

Event Operations Lead (University eSports Tournament)

College of Computer Studies

2024 – 2025

- **Event Coordination:** Orchestrated end-to-end logistics for a department-wide Dota 2 tournament, managing registration data for 50+ participants.

EDUCATION

Bachelor of Science in Information Technology

University of Cebu - Banilad Campus

2022 – 2026

CERTIFICATIONS

Google Project Management Certificate

- **Coursera** - DTI Google Learning Program (In Progress)
